November 23, 2011

To Whom It May Concern,

The 60-day period to provide comments on the proposed recovery strategy for the boreal population of woodland caribou, originally scheduled to close October 25, 2011, is extended for an additional 120 days to February 22, 2012. This extension is a result of Environment Canada's desire to effectively consult with all interested parties prior to finalizing the Recovery Strategy.

Environment Canada will be holding a briefing for stakeholders in the region. Details for the briefing in your area are as follows:

Date: Monday December 19, 2011

Time: 1:00 - 4:00 PM

Location: Saskatoon Inn Hotel and Conference Centre
2002 Airport Drive, **Saskatoon, SK S7L 6M4**

To register for this event or to obtain more information about these sessions, please contact Greg Wilson (greg.wilson@ec.gc.ca; 780-951-8669). **Registration requests should be received no later than December 12, 2011.**

I encourage you to circulate this invitation to colleagues who may have an interest in the development of the national recovery strategy for boreal caribou and welcome your participation in this matter.

Sincerely,

Mark Wayland
Supervisor, Species at Risk Recovery Unit
